MEMO FOR

CIA *RK 12 JAN 81*

FROM: Bob Schafer

*RES*

SUBJECT: Underice Operations

25X1

This is to request information on Soviet capabilities, both current and projected, to operate submarines under the Arctic ice. I am particularly interested in evidence of actual Soviet operations to date, and evidence that Soviet submarines, weapons and command control systems have been designed to permit underice operations.

As I indicated to you on the phone, I will make a similar request through Navy channels.

I plan to be in the office Wednesday and Thursday of next week (January 20 and 21) if you are able to address these questions.

**CONFIDENTIAL**
